### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Robert Berube on Monday January 22, 2007.
3. The application has been amended as follows:  
Claims 28-34 have been canceled.

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

The closest prior art is Gonczy et al (US 5,143,770) in view of McGivern et al (US 6,521,077) and Sanyo (JP 2003-260371).

Gonczy teaches a multilayer insulation blanket comprising successive co-extensive layers of thermally reflective materials and spacer materials (col 6, lines 4+). The thermally reflective material is a metallized polyester or polyimide film (col 6, lines 4+). Said thermally reflective materials are herein understood to read on the claimed "outer sheet of thermally insulative plastic material" and "at least one inner sheet of thermally insulative plastic material."

McGivern teaches that blankets that are useful as insulating blankets for cryogenic structures are also useful as insulating blankets for spacecraft (col 3, "Brief Summary of the Invention").

Art Unit: 1773

Sanyo teaches a photocatalyst material applied to the outer surface of a material in the presence of solar radiation and exhibits good adhesion and durability effective for inducing the breakdown of organic residues (abstract).

The claimed invention is allowable over the prior art because the prior art fails to teach the claimed multi-layer insulation blanket providing thermal protection to a spacecraft portion because the prior art fails to render the claimed multi-layer structure wherein the anti-contaminant material is overlaid with an outermost electrically conductive layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
